

# ACCESS WALL CONTROLLER DMX 2

## PRODUCT DESCRIPTION

The Access Wall Controller DMX 2 is the DMX wall control which allows managing the immediate change of colors between different units, such as the Sigma Wallwasher RGB Linear and the Aura RGB stripled. The Access Wall Controller DMX 2 allows programming up to 8 different themes. With its uncluttered and discreet design, it will perfectly agree on your walls.

Thanks to its USB system, adequate software is provided to manage the desired color by means of its 128 DMX channels.

With its uncluttered and discreet design, it will perfectly agree on your walls.
