

AURA AR 111 SILVER

PRODUCT DESCRIPTION

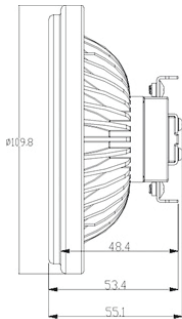

Aura AR 111 Silver is meant to build sophisticated lighting designs in retail shops, restaurants and public venues. With no heat emission, it is well suited for the lighting of fragile objects.

It is often used by professionals in showcases with food items, art objects and other precious goods.

This accentuated lighting replaces iodide installation up to 50W. Its dimming from 5 to 100%, its instant lighting and its 35.000 hours life cycle make it a very reliable product.

- **Standard adaptation to any iodide installation**
- **Resistant to vibrations with its brushed aluminum structure**
- **Reduced maintenance**

DIMENSIONAL DRAWING
